COMPANY PROFILE

## Mission-ready

Founded in 2023, AVIZ DATA LLC delivers **data analytics, systems integration, AI and automation, software engineering, network security support, and digital modernization** for education, commercial, and public-sector missions. Our approach is grounded in hands-on school systems work and technology and cybersecurity consulting for companies.

### CORE CAPABILITIES

#### Data, Analytics & Governance

Architecture, pipelines, data quality, KPI governance, dashboards, reporting, and decision intelligence.

#### AI, Agents & Automation

Knowledge assistants, document processing, governed agents, approval gates, evaluation, and training.

#### Systems Integration

APIs, data mapping, CRM, LMS and ERP workflows, identity, events, monitoring, and exceptions.

#### Software & Digital Platforms

Secure portals, web applications, operational platforms, SaaS foundations, and workflow tools.

#### Network & Cybersecurity Support

Security-minded architecture, access and configuration review, exposure analysis, remediation plans, and runbooks.

#### Program Delivery & Transition

Discovery, architecture, implementation, testing, documentation, training, acceptance, and operational handoff.
